

Half term work Oct/Nov 2015:

1. Read the scans of the textbook on cell organelles and print for you notes
2. Read extra information in the cells Power Point – use this to make sure you have completed all your magnification and microscopy notes
3. Complete the cells questions that were distributed last day
4. Complete the cells definitions
5. Read through the introduction page to the coursework practical (proteins, pH and jelly)

Have a great half term!

Mr Dorman
